

# Using Our Provider Search Tool

First Health has made finding a health care provider even easier! With the NEW Online Provider Search Tool, you can quickly and easily locate network providers.

## To Get Started:

Go to [www.firsthealth.com](http://www.firsthealth.com)  
Click "Locate a Provider"

## Follow these easy steps:

### 1. Choose your search option:

- Find a Doctor
- Find a Hospital
- Find an Ancillary Service Provider
- Find an Urgent Care Center
- Find an Allied Health Professional

**2. Select your Product** (network) **and Search Criteria** (name, distance or County; County list only available in Email format)

**3. Select either all physicians or by specialties**

**4. Click on Find or Advanced Search (if applicable)**

From these results you can:

- Compare providers
- Display map
- Add to your contacts
- Save search

### 5. To create a provider directory:

Once your providers are listed, Click on "Create a Directory" option on the top menu bar.

You have three options on how to receive a directory:

1. Download a directory - a PDF document is displayed in an Internet Explorer window.
2. Email - allows directory to be emailed with only the results that are displayed on screen (only the first 200 providers) or the entire results. Email can be sent to multiple recipients.
3. Fax - allows directory to be faxed with only the results that are displayed on screen or the entire results.
